

Kamil Vítek

I build websites by combining strategy, design and modern web development. Alongside that, I founded and validated Oslavu.com. I also worked part-time at Bosch Power Tools in Czechia, where I developed an internal application, researched electronic waste management and created a company tour video. Most recently, I started studying Economics and Business Administration at Aarhus University in Herning.

📁 WORK EXPERIENCE

Project Specialist

JUN 2026 – JUL 2026

Bosch Power Tools, Mikulov, Czech Republic

- Produced factory tour video in two languages.
- Researched circular economy opportunities for electronic waste processing.
- Analysed existing internal systems and proposed improvements for database management.
- Developed internal app for employees and assets management.

📁 PROJECTS

Freelance Web Designer & Developer

kamilvitek.cz

(07/2023 - Present)

- Obtained special government permission to start a business at age 16 (early entrepreneurship license).
- Managed end-to-end client projects, from initial brief and content planning to final delivery and launch.

Oslavu.com

oslavu.com

(09/2025 - 12/2025)

- Built an AI-powered SaaS platform for event conflict detection.
- Validated the concept through pilots and partnerships; long-term viability was not confirmed.
